Questionnaire of use of the college library page

In the table below, 5 meaning good and 1 meaning poor please evaluate a system with similar ideas as what the app will be designed to do. This will help me as the designer to find out what you as a user may require. Please give extra detail if need be in the thoughts section.

Questions	1	2	3	4	5	thoughts
How professional does the main page look?	x					
Books on web design, can you search easily?				x		
Choose a book, is the information clear?					x	
Is it clear how to reserve a book?						
Can you find books you may have reserved before?				x		
Can you find a book through the "Complete subject list"	x					Cant even see the 'Complete Subject List'
Does the website do what you expect?				x		
What was your overall experience?			x			

Other thoughts:
Looks really cluttered, functions not obvious - you have to know what you're looking for to find something. Would be really bad for a first time user.
